## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5, 6, 12, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Trammer #286,869. Trammer discloses a housing having an elongated passage (c, d) dimensioned for receipt in the associated waterway such that a longitudinal axis of the passage is substantially aligned with a direction of waterway flow, the housing including at least one outer surface having a series of peaks and valleys (a, b) facing over the passage; and a deflector (F) located upstream of the passage and angled to direct water in the waterway around the passage.

### ***Allowable Subject Matter***

4. Claims 2-4, 7-11 and 13-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
